To whom it may concern:

Delisle Contractors remodeled our kitchen and the results were just as we had hoped for. From demolition of the old kitchen to the addition of the final cabinet lighting to complete our new kitchen I can say my husband and I (and our friends as well) were pleased as we didn't bump up against some of the surprises you sometimes hear about.

They were even considerate when we added a few minor changes as the project came to conclusion. We had budgeted \$25,000 and the project came in on time and within the fiscal boundaries we had given Delisle.

It has been a pleasure to work with Delisle Contracting, as often he facilitated the choice of materials to use thanks to his keen appreciation of our style, conveniently bringing the samples to our home, saving us precious time not having to run out to the showrooms.

Mostly, I was thrilled to see how considerate Bill was, making sure that every day before leaving the site, our place would be left cleaned of all debris and functional even after being torn apart during the day. We certainly would recommend Bill and his associates and have agreed that he can use photos of our kitchen in his web site if he so chooses.

Thank you for your kind attention,

Dominique Berry
