Bill Delisle recently remodeled my fathers Florida Condominium of 35 years, during his summer months spent in Michigan. It was a very large project that involved knocking out walls to open up a kitchen, two total bathrooms, new doors, flooring and painting throughout. He was courteous, conscientious, well informed and very easy to work with.

He listened well to what we wanted to accomplish and offered suggestions and improvements to our ideas. When something wasn't quite how we expected, it was discussed, agreed on and changed, in a timely manor.

He was always available and kept us well informed as the project progressed. Bill completed most of the work himself, but when a sub-contractor was used, he was there to supervise the work and make sure the quality was what he demanded.

We felt that his pricing was fair and his quality of work was outstanding. He paid great attention to detail and was very respectful of your living area. This project was completed close to the time frame discussed and Bill presented us with a totally finished, outstanding apartment, immaculate and ready to move into! Complete with fresh flowers!

In all, we would highly recommend Bill to anyone thinking of a remodel. Our Condo is beautiful and exactly how we envisioned it. Thank you Bill!

Available to be seen by appointment with Bill.
We are very proud of it!!
